

COVID-19

In these unprecedented times of the global Coronavirus public health emergency, we wanted to reach out to let you know what Sydney Styles is doing to support our team and you, our Valued Clients.

We are following the advice from the Australian Government Chief Medical Officer to maintain a healthy work environment.

If you are planning to visit one of our Showrooms, we ask that when entering and leaving you use the provided hand sanitiser.

If you are considering a renovation, we are determined to do whatever it takes to continue providing you with the exceptional customer service for which we are renown. For those of you who wish to maintain physical distance, we will be implementing online connectivity for your Design Consultation to make initial selections so that when this situation begins to settle you will be in a strong position to move forward with your dream bathroom, laundry or kitchen renovation.

It is well known that reducing face to face contact will slow the spread of the virus, so we are putting measures in place to ensure your safety and that of our staff during your renovation process.

Your Project Manager will keep you advised of when our trades will be entering your home so that you have the choice to leave during their attendance. Our trades people will sanitise their hands before entering and upon leaving your home and they will wear the face mask.

This health emergency is new and daunting to all of us and we are mindful that whilst it is of concern, we are doing all that we can to continue to provide you with the highest level of service whilst taking necessary measures to keep everyone as safe as possible.

Thank you for your understanding and stay safe
